

## Table of Contents

(as per the printer's galley proofs)

### ***Explanatory Note about the confusing sequence of chapters in these galley proofs***

For reasons unknown, the printer delivered his galley proofs for final proofreading with the chapters entirely out of their correct sequence. If you wish to read the book in its correct sequence of events, you must follow the *chapter numbers*. For example, at the end of Chapter I, 'Percy Molteno's boyhood', on galley page 19, go to Chapter II, 'The Moltenos in Lombardy', on galley page no. 91.

### ***This book has been divided into 3 parts on this website***

This is because of its great length. The first part goes to galley page 200 (early in Chapter XIII, 'After the Raid'). The second part goes to galley page 400 (well into Chapter XXVI, 'Home Rule, Tariff Reform and Foreign Policy in 1912'). And the third part goes from there to the end of the book.

### ***How the Table of Contents would have looked if the book had been printed***

For clarity's sake, I have set out at the end of this Table of Contents, how it would have looked once the chapters had been put in their correct sequence.
